## **President's report for November 2016**

Well I don't want to put the hex on things but I do believe summer is on the way. The field is starting to dry out somewhat and Jim's even managed to mow the runway, though it took 3 passes as it had grown quite high over the months of rain.

So we can look forward to getting back into flying our favourite models not just the ones that can handle the constant wet windy days we have been having. Though on the positive side we have had to get used to it and I have noticed as a result our confidence and skill level have improved somewhat.

You will have noticed that Robert, our editor, "as reality set in", realised that putting out this mag. with little or no input from members, amounts to a mountain of work and along with his other commitments has decided to let Ross take it back. So a big thank you Robert. We really do appreciate your time and effort put into the mag. Another big thank you to Ross who has taken it back on board again and again !!! Needless to say please help him by sending interesting info and photos to put into your magazine, he will really appreciate it. Let's face it, if we don't then it's quite possible that, sometime in the future, we will have to simplify the content.

As you know we had to cancel October's twilight due to our waterlogged field. We haven't made a date yet to make up for it, but December is looking promising.

Christmas lunch is being held at the Silverdale RSA 20th November at 12.00 noon \$30.00

The next twilight evening on the 23rd November, fingers crossed.

And a reminder from myself and the committee about our flying days which are strictly as stated on our website, with no flying on any other days including test flying, in order to show due consideration to our Landlord and close neighbours.

Richard has also informed us that he has put the field into grass for hay making. So we will keep you informed as to what parts of the field are off limit for vehicles etc. as details come to hand.

Ok folks lets get flying

It's a lonely  
job but  
someone  
has to do it

I needed a password eight characters long so I picked Snow White and the Seven Dwarfs.

Looks more like a scene you would see in a British movie instead of a Pacific Island

The next Aerobat will come out beginning of December as usual which will bring us back into line as normal

PS Sorry about the jokes. Ed

I've decided to sell my Hoover... well, it was just collecting dust.
